PRESS RELEASE FROM SCRIBONA AB (publ), corp. reg. no. 556079-1419

January 11, 2006

Carl Lamm acquires three IT companies

Carl Lamm today signed an agreement to acquire three IT companies. The companies have a total turnover of approximately 100 MSEK and hold 55 employees. The acquisitions are part of a new strategy for Carl Lamm, which means that the company now can offer a new range of products and services related to IT infrastructure. This provides a rapid and nation-wide expansion within the new business area.

The three acquired companies are Vinga Datacenter in Gothenburg, Megabyte System in Stockholm and Saldab in Malmö. With the acquisitions, the new Carl Lamm will obtain a broadened client offering, making it possible to reach new client groups and strengthen relationships with existing ones.

The expanded client offering comprises for example computers and servers, added software, data storage, network solutions, and ip telephony. Together with the existing Carl Lamm solutions for document management, combinations can be created that clients are increasingly asking for.

The acquisitions should be viewed as a step in preparing and creating the conditions for distribution of the shares in Carl Lamm to the stockholders in Scribona and a separate listing of the company. A decision in principal about this preparation work was made at Scribona's extraordinary general meeting in December of 2005.

For more information, please attend our press conference tomorrow Thursday, January 12:

> When: 12.00 – 13.00. Lunch will be served adjoining the press conference.
> Where: World Trade Center, Klarabergsviadukten 70/ Kungsbron 1
> Room: London, see www.wtc.se/konferens.aspx
> RSVP: Emma Stjernlöf, GCI, phone: +46-8-402 27 52, emma.stjernlof@gci.se

The four CEOs of the involved companies will be attending the press conference; Hans Johansson - Carl Lamm, Hans Svensson - Vinga Datacenter, Ibbe Gnem - Megabyte System and Tommy Åkerfeldt - Saldab.

Welcome!
