

SCRIBONA

PRESS RELEASE FROM SCRIBONA AB (publ) corp. reg. no. 556079-1419

June 29, 2006

Decision regarding the spin-off of Carl Lamm during the third quarter

The preparation for the spin-off of Scribona's business area Carl Lamm continues according to plan. The ambition is to propose a decision regarding the spin-off to an extraordinary general meeting during the third quarter of 2006. The intention is to list Carl Lamm at the Stockholm Stock Exchange.

During the spring of 2006, Carl Lamm has been taking a number of measures in order to secure the company's possibilities to show continued growth and improved profitability in the future. With present market conditions, Carl Lamm target a yearly growth rate of at least 12 percent during the years to follow. Concurrently with increased volumes, the management estimates that margins also continuously will improve.

"We have put a lot of efforts in implementing new systems and processes during the first half of 2006 at the same time as we have worked on securing the formal requirements for a spin-off. In spite of this, we have been able to grow and secure market shares and we trust that this development will continue at the same time as our margins improve. Our efforts to improve the IT-infrastructure business will contribute to increased growth during the autumn" says Hans Johansson, CEO, Carl Lamm AB.
