

# SCRIBONA

Press Release

Solna, January 31, 2007

## Organizational changes at Scribona

**The management of the IT distributor Scribona has decided to implement organizational changes in Helsinki, Finland, and Malmö, Sweden. These steps are being taken within the framework of an ongoing regionalization process that is aimed at reducing costs and boosting profitability.**

In the Finnish subsidiary, the decision will involve the transfer of certain functions to the corporate headquarters in Solna, Sweden. Operations in Sweden will be concentrated at the headquarters, and the local office in Malmö will be closed.

The organization will be reduced by around 50-60 employees as a result of these changes.

"This is part of an ongoing action program aimed at making Scribona, which is already the Nordic region's largest distributor of IT products, the most cost-effective company in the business. Profitability will be achieved through a cost-effective offering, high and consistent delivery quality and continuous product development. This process of change will further strengthen customer confidence in Scribona," says Fredrik Berglund.
