

New risk manager for Catella's funds

Helena Eriksson has been appointed as a new risk manager for Catella's Swedish fund operations. Helena has an extensive background in risk management, in mid office and back office, from previous positions with Danske Capital and Swedbank Robur.

"We are pleased and proud to be able to announce Helena Eriksson as a new risk manager at Catella. Catella has a high level of ambition in terms of fund management, and it will now be Helena's mission to further develop our work with risk management," says Erik Kjellgren, head of Catella's Swedish fund operations.

"Catella has grown significantly in fund management in recent years, and we now need to enhance the business-critical functions in risk management in order to develop the operations further. Helena will be an excellent complement to the existing staff within the risk management team," says Erik Kjellgren.

Helena Eriksson has extensive experience from various roles in risk management within mid office and back office. She joins us from Danske Capital where, as Head of Business Support, she was responsible for administration and risk management. Helena was also included in the Swedish management team at Danske Capital. Helena has previously also worked in mid office at Swedbank Robur.

Helena takes up her post at Catella on 1 January 2015.
