

New management for Catella's Corporate Finance

Catella has appointed Emmanuel Schreder and Jesper Bo Hansen to head the operating segment Corporate Finance.

"I am very pleased to be able to present new management for our Corporate Finance operations. Emmanuel and Jesper provide us with leadership that will develop our product offering and our organisation. They will also set out the future direction of Corporate Finance. They are both well respected managers and strong individuals, and I personally have great confidence in them," says Knut Pedersen, President and CEO Catella.

Emmanuel Schreder has shared responsibility for Catella's French operations since 2001. He has almost 30 years of experience from the property sector and has a high profile in the French and European property markets. Together with Stéphane Guyot-Sionnest, Emmanuel founded Catella's French operations, which have been highly successful from the start.

Jesper Bo Hansen set up Catella's Corporate Finance operations in Denmark in 2000, and has been responsible for these ever since. Jesper has worked for more than 20 years in the property sector and has extensive experience of capital market transactions in the Nordic property market.

Emmanuel Schreder will continue to lead the French operations together with Stéphane Guyot-Sionnest, and Jesper Bo Hansen the Danish operations, in parallel with their new roles as heads of the Corporate Finance operations.

"The new management enables greater focus on business development and on collaboration between both geographical areas and service areas. Catella has a leading position in advisory services for the European property sector. Our aim is to win market share in both advisory services and asset management within the property sector," says Knut Pedersen.
