EETI Quarterly Review

QUARTER ENDED 30/09/2020

October 2020

DRAFT

Table of Contents

- 1 European ABS / RMBS Activity and Performance
- 2 Portfolio Performance
 - A. Cash Flow
 - B. Performance & Valuation
 - C. Lusitano 5
 - D. Pastor Positions
 - E. Other Items
- 3 Provisional Accounting Items

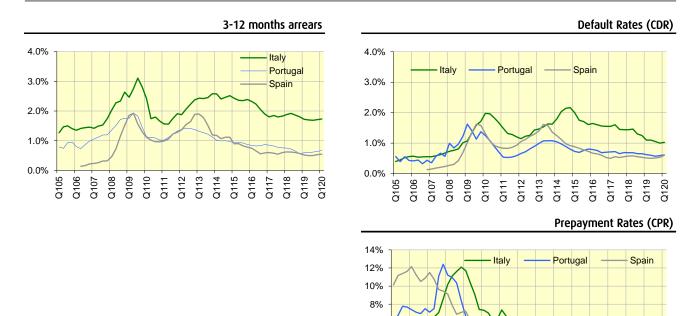

Appendix: Historical Valuation Assumptions

1 EUROPEAN ABS / RMBS ACTIVITY AND PERFORMANCE

Prime European RMBS performance

- ➤ The credit performance of peripheral RMBS appears to have stabilized in the third quarter, after a marked deterioration in Q2 2020.
- ► Available data continues to point to significant payment holidays in certain countries, notably Portugal.

Q108 -

Note: Indices based on own data collection of a broad sample of seasoned RMBS transactions.

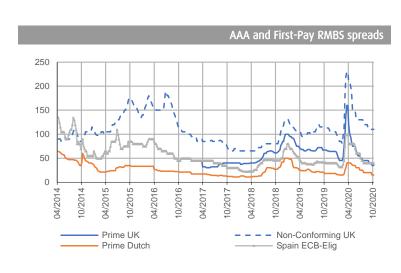

Source: Trustee reports and Cartesia.

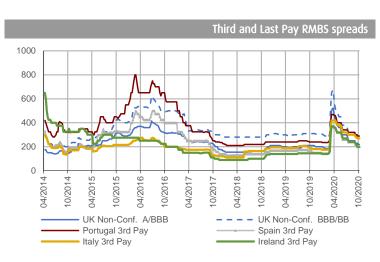

Prime RMBS

European ABS / RMBS market activity

- ▶ The European ABS market has continued to grind tighter over the past quarter but with significantly less momentum than in Q2. Spreads are now overall modestly below their July level but still above the lows experienced in 2018 except for the highest quality AAA.
 - Core Eurozone first-pay spreads are standing at +15-20 bps over Euribor close to their pre-pandemic level;
 - Seasoned peripheral mezzanine bonds are trading at spreads over Euribor of +250 to +300 bps, still above early 2020 levels of +150 to 230 bps.
- ► The secondary market has been quite active with a good amount of legacy and 2.0 securitisations being traded at the current levels. Primary activity in European ABS remains tepid notably in the CLO sector.

Source: Citi for 3-5 year WAL bonds.

CONFIDENTIAL

2 PORTFOLIO PERFORMANCE

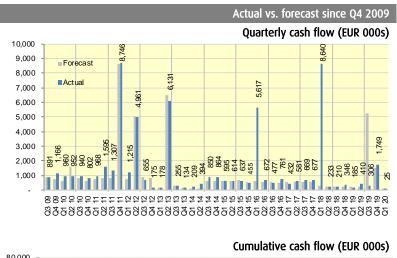

A. Cash Flow

Cash flow receipts for the quarter ended 30/09/2020

Cash flow receipt for the quarter

No cash flow received on the positions held in portfolio in Q3 2020.

None of the positions held generated cash flows in Q3 2020.

Forecast annual cash flow

			F	orecast cash f

B. Performance & Valuation

Quarterly performance indicators

(EUR 000s)

	90	Od+ arr.		CDR		CPR	Rec	overies			Reserve
 Transactions	Act.	Fcast	Act.	Fcast	Act.	Fcast	Act.	Fcast	Act.	Fcast	Min.
Lusitano 5	0.7%	n <i>j</i> a	0.2%	0.5%	4.9%	4.7%	690	800	5,561	5,438	11,900
Pastor 2	0.5%	n <i>j</i> a	1.1%	0.4%	3.0%	5.3%	13	60	4,823	5,000	5,000
Pastor 3	0.9%	n <i>j</i> a	0.8%	n/a	4.6%	n ⁄a	49	n/a	(46,541)	n <i>j</i> a	9,000
Pastor 4	0.8%	n <i>j</i> a	1.1%	0.9%	4.8%	4.6%	24	116	(38,241)	(38,480)	5,520
Pastor 5	5.0%	n <i>j</i> a	1.4%	n ⁄a	3.6%	n ⁄a	362	n ⁄a	(30,429)	n ⁄a	10,500

The credit metrics for Lusitano 5 and Pastor 2 have remained positive and the remaining Pastor transactions have only modestly deteriorated.

Notes:

A negative reserve indicates a principal deficiency to the senior notes (unpaid PDLs). Reserve amounts are highlighted in red when negative or below their minimum required level, even if they are better than forecast.

Higher CPRs than forecast are a negative for the residual positions in Lusitano 5, all other things equal, and are therefore depicted in red; higher CPRs are a positive for the other positions and are therefore depicted in green.

EETI also holds the Class D residual position of the Sestante 4 transaction and the junior notes of the levered repackaging vehicles holding the residual positions of the Lusitano 4, Sestante 2 and Sestante 3 transactions. These positions are written off and considered to be irremediably impaired.

Quarterly valuation

- ▶ Quarter-end book value amounts to EUR 10,957k with accruals.
- ▶ Total markdown of EUR 110k, relating essentially to Pastor 2.

Note: EETI also holds the Class D residual position of the Sestante 4 transaction and the junior notes of the levered repackaging vehicles holding the residual positions of the Lusitano 4, Sestante 2 and Sestante 3 transactions. These positions are written off and considered to be irremediably impaired

Quarter-end portfolio book value of EUR 10,957k further to markdowns on the Pastor 2 and 4 positions.

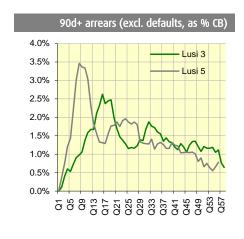

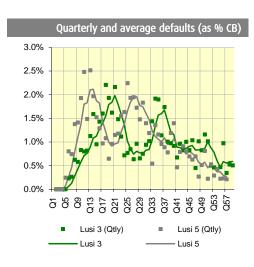

C. Lusitano 5

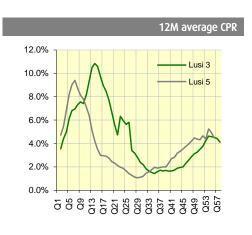

Lusitano 5 credit performance

- ▶ The credit performance of Lusitano 5 has remained satisfactory despite the pandemic-induced macro shock, with low arrears and defaults and continuing recoveries on defaulted mortgages.
 - Trustee reports indicate however that a substantial portion of loans continue to benefit from the full or partial payment moratorium mandated by the Portuguese Government;
 - 16% of loans by number and 19% by amount were covered by the scheme in Q3, modestly above Q2 number,
 and it remains to be seen to what extent these loans will reperform over the coming quarters.
- ▶ In that context, the reserve has continued to be replenished at a rapid pace; it reached EUR 5.4m in Q3, slightly ahead of forecast.

Performance data remains positive despite the pandemic. The share of loans covered by the Government-mandated moratorium is however elevated and could lead to an increase in defaults in 2021.

Note: Graphs expressed in quarters since issue.

Valuation impact of Lusitano 5

▶ We maintain at this stage our earlier assessment that the pandemic is likely to delay but not derail the replenishment of the reserve fund on the Lusitano 5 transaction, if only because of slower recoveries

- Revised forecasts incorporate that slowdown leading to a further delay in the resumption of cash flows on the residual position to Q2 2022.
- ▶ At the same time, the deterioration of the macroeconomic outlook in Portugal and across the Eurozone, and its unavoidable knock-on impact on banks' performance should continue to reduce the limited flexibility of Novo Banco to exercise the time call.
 - Note that the trading levels of the Lusitano 5 senior and mezzanine bonds still do not point to an exercise of the time call in the foreseeable future but rather to the continuation of the transaction for several years.
- ▶ On that basis, the discount rate used to value the position remains unchanged at 30%.
- ▶ The position is valued on the basis of discounted forecast cash flow until clean-up call at a rate of 30%, resulting in a book value of EUR 4,946k at quarter-end.
 - The quarterly adjustment on the position is of EUR 13k.

The position is valued at EUR 4,946k with an unchanged discount rate at 30.0%.

D. Pastor Positions

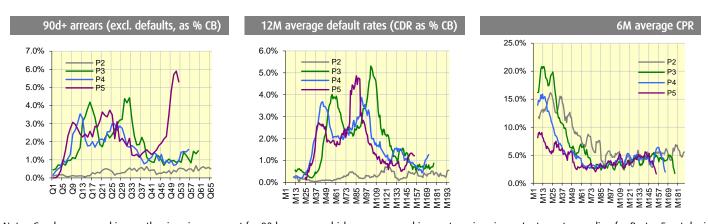

Pastor credit performance

- ▶ The Pastor 2 transaction has experienced a one-off rise in defaults in Q3 which is believed to be temporary as 90-day+ arrears have remained low at around 0.50%. Consequently, the reserve fund remains modestly overdrawn (by around EUR 180k) which should be easily cured through express spread and recoveries.
- ▶ The other Pastor transactions have overall remained stable since Q2, without a marked deterioration in credit metrics despite the macroeconomic impact of the pandemic.
 - Long arrears remain below 1.0% for both Pastor 3 and Pastor 4 and the quarterly default rate has remained within a 0.8-1.1% p.a. range. Both transactions have also started reducing the principal deficiency amount, in a reversal of the first half trend;
 - Government-mandated payment holidays in Q3 are almost non-existent and only concern a handful of loans in both Pastor 3 and 4 transactions;
 - Pastor 5 continues to experience elevated arrears and default rates of 5% and 1.4% respectively but owing to recoveries, the principal deficiency amount has continued to be somewhat reduced in Q3.

Q3 data suggests a stabilization in the credit performance of the Pastor transactions, despite the impact of the pandemic on the Spanish economy.

Pastor credit performance (Cont'd)

Note: Graphs expressed in months since issue except for 90d+ arrears, which are expressed in quarters since issue. Last quarter reading for Pastor 5 not depicted.

Valuation of Pastor investments

Pastor 2

- ▶ The 10% clean-up call was not exercised by Banco Santander as anticipated in Q3 2020 although the performing loan balance has fallen to 7.5% of its original amount.
- ▶ Given the high quality of the underlying loan pool and the pattern of Banco Santander of exercising clean-up calls, even with a certain delay, the position is valued assuming a clean-up call in Q4 2020 and the repayment in full of the EUR 5m subordinated loan.
- ▶ The Pastor 2 position is valued at EUR 4,945k with total forecast cash flow amounting to EUR 5m; the discount rate is of 5.52%.

Pastor 4

- ▶ Given the stabilization of credit performance this quarter, the Pastor 4 position is valued on the basis of a slight deterioration of the default rate that still leads to a partial recovery of the subordinated loan amount held by EETI.
- ▶ These changes lead to a reduction in total expected cash flows to EUR 2.39m vs. EUR 2.45m previously assumed, with the expected payout still assumed to be received in Q3 2028.
- ▶ On that basis, the Pastor 4 position is valued at EUR 1,066k with a markdown of EUR 30k. The discount rate is of 10.52%.

Pastor 2 is valued at EUR 4.94m assuming an exercise of the clean-up call in Q4 2020.

Pastor 4 is valued EUR 1,066k with a markdown of EUR 30k.

E. Other Items

Other EETI Investments

- ▶ The Pastor 3 and 5 positions remain valued at 0.
- ▶ EETI also holds the Class D Notes of Sestante 4 as well as the junior notes of the Citrine refinancing vehicle referencing the residuals of the Sestante 2 and 3 and of the Lusitano 4 transactions. These positions are valued at 0 and considered permanently impaired.

Note: Changes in variables which are supportive to the valuation of a position are depicted in green; changes depicted in red are unsupportive to the valuation of a position. In the case of prepayments / CPR, an increase is favourable for the Pastor positions but unfavourable to the residual positions in Lusitano 3 and 5.

Revised valuation assumptions (Cont'd)
